Department of the Army

## Michael A. Bieri

Director,  
Engineering Directorate  
U.S. Army Aviation and Missile Research,  
Development, and Engineering Center  
Redstone Arsenal, Alabama

Mr. Bieri was selected for Senior Executive Service in May, 2015. He serves as the Director, Engineering Directorate (ED), U.S. Army Aviation and Missile Research, Development, and Engineering Center (AMRDEC) at Redstone Arsenal, Ala. The Engineering Directorate plans, develops, manages, and conducts Aviation and Missile Life Cycle Management Command (AMCOM) programs in the areas of total life cycle systems engineering, product assurance, test, and evaluation. The Engineering Directorate is home to experts in a wide array of technical specialties with access to numerous prototyping laboratories and facilities.
